

Smarter Tools. Faster Processes. Safer Data.

Collateral360®: What's New in May 2025

Engagement Letter Just Got Smarter

We've enhanced the Engagement Letter tool to give your team more flexibility, coverage, and confidence.

- **More Customization: New Variables**
Unlock additional fields and formatting options to tailor letters to your exact needs.
- **Process Improvements**
Updates now cover more use cases and edge scenarios, improving reliability.
- **Not Using the Updated Workflow Yet?**
Let us help you get started. Reach out to your Account Manager or contact us at lendersupport@lightboxre.com to enable the latest workflow.

Introducing Advanced Property Definition

Looking for smarter ways to identify and define property locations? Advanced Property Definition is now available for even more users.

- Visual parcel maps, boundary drawing, and custom tools help eliminate misidentification of collateral.
- Only available with a LightBox login — Get access today and explore new levels of location clarity.

[Want a live demo of Advanced Property Definition?](#) Our Sales team is ready to show how this tool can save hours of back-and-forth and deliver better results.

Performance & Security Upgrades

We're always working behind the scenes so your team can move faster and with more accuracy.

- **Faster Queries = Time Saved**
Continued investment in performance optimization means smoother, quicker load times across key workflows.
- **Better Security**
We've enhanced our Content Security Policy (CSP) headers to keep your data even more secure.
- **Secure File Transfers**
Our APIs now support signed URLs for file upload/download—adding a layer of protection with every transaction.
